Artgo Tutorial

## Step 1: Download an Aleo Wallet

To interact with the Aleo network, you need a Leo Wallet. Download Leo Wallet from:
https://leo.app/.

After downloading, create your wallet by following the instructions.

Step 2: Claim Aleo testnet tokens

Claim Aleo testnet tokens to pay the network fees when minting NFTs. Visit
https://faucet.aleo.org/ and send a text message to the assigned number to obtain 50 credits.
You may need to wait a couple of minutes.

Text 📱 +1-867-888-5688 with "Send 50 credits to aleo1xxxxxx"

All distributed credits are for testing purposes and do not have value.

Note that one address can only claim credits once per day.

Step 3: Use Artgo

1. Connect your wallet

Visit Artgo APP: https://artgo.app/aigc/mint , click **Connect** in the upper right corner to connect Leo Wallet. Sign in your wallet, and your wallet address will be displayed in the upper tight corner.

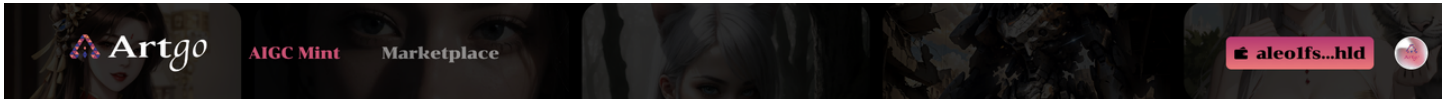

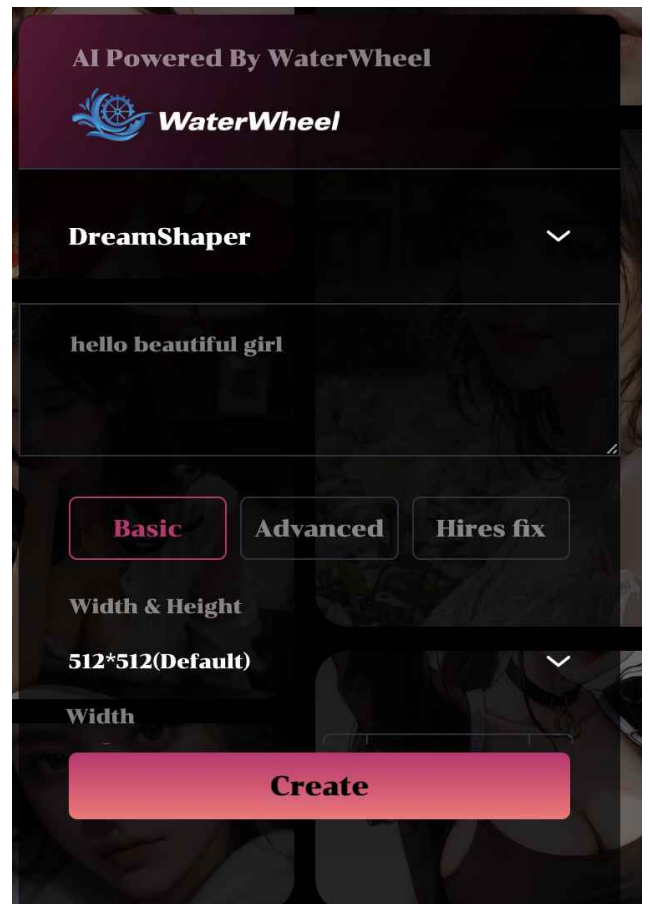

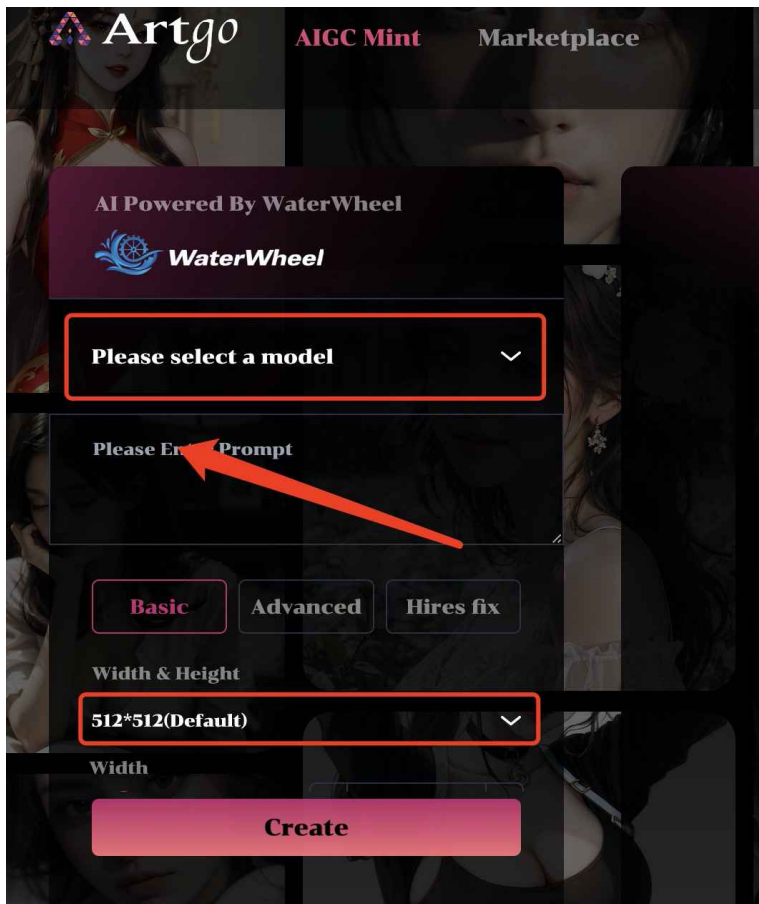

You can find **AIGC Mint** and **Marketplace** tabs in the navigation bar. Go to **AIGC Mint** to create AI-generated image**,** mint NFT, and go to **Marketplace** (coming soon) to trade NFTs**.**
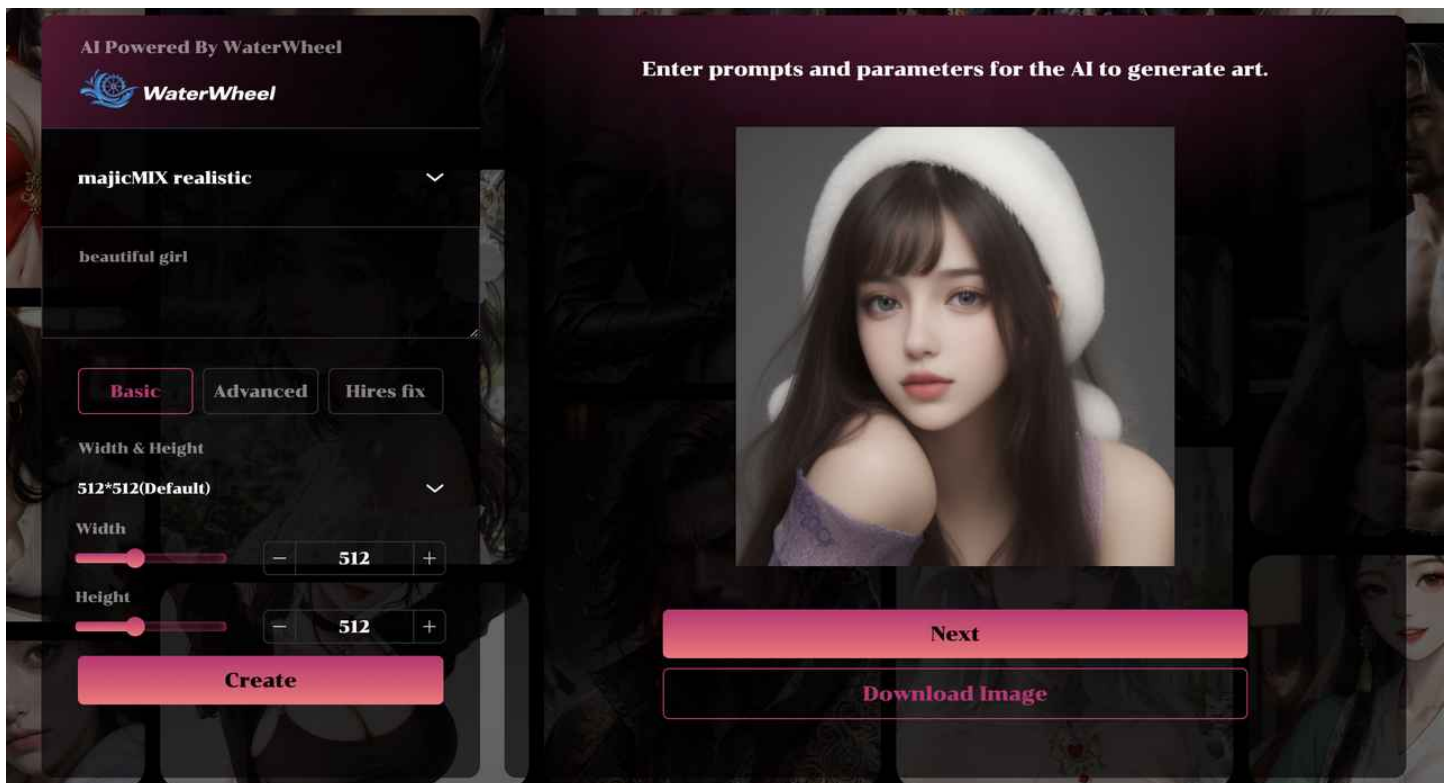

2. AIGC Mint

2.1 AIGC

The AIGC feature of Artgo is backed by WaterWheel. We provide a rich variety of AI models and parameters for users to choose from.

With the tool shown in the figure above, you can start your creating journey. Select a model, enter the promps, set up the parameters, then click **Create**.

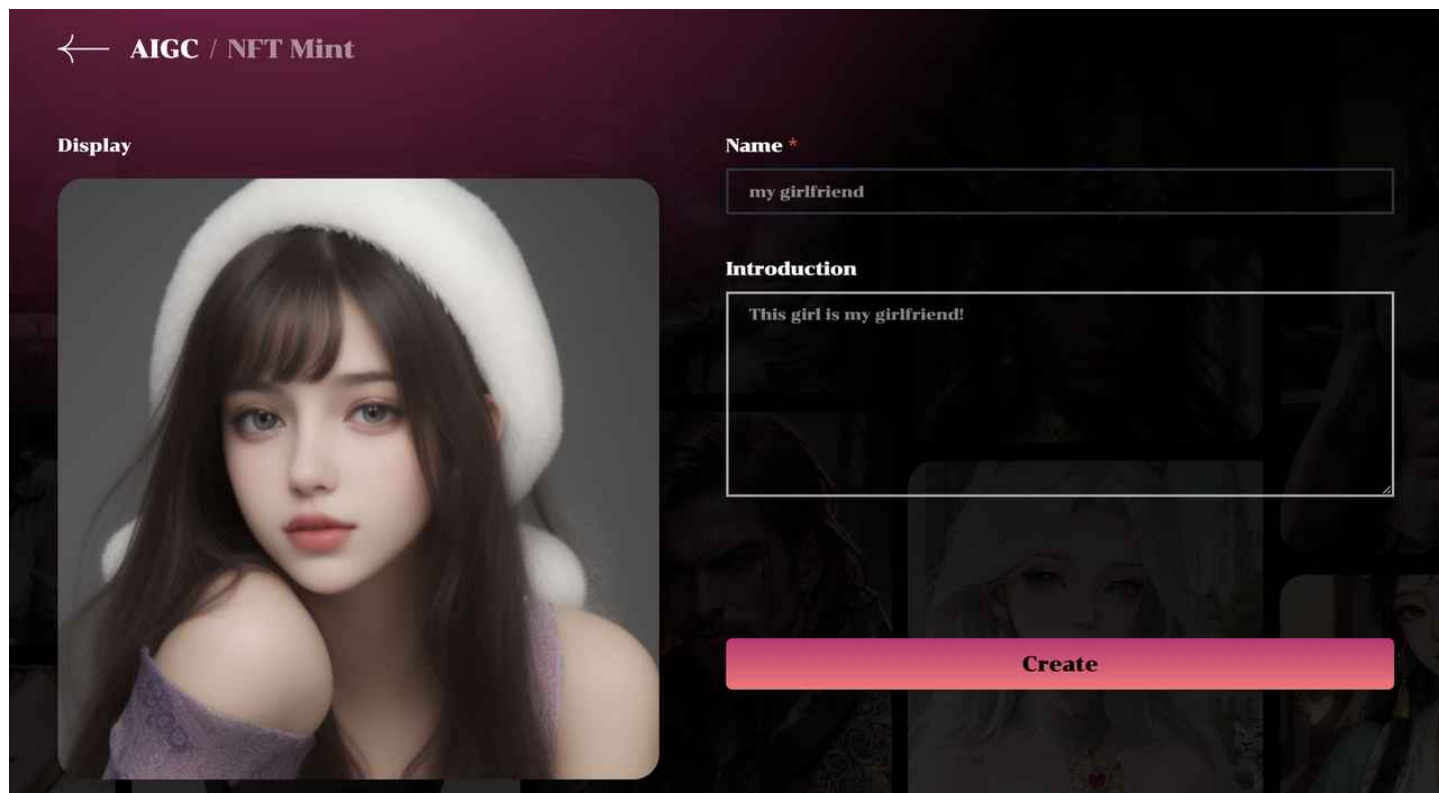

Your artwork will be displayed on the right-hand side. You can download it to your computer, or click **Next** to mint it into an NFT.

2.2 NFT Mint

As an NFT creating and trading platform, Artgo supports NFT minting for AI-generated images on the Aleo network.

To transform your artwork into an NFT, name your artwork, give it an introduction (optional), then click **Create.** Sign in your wallet to complete the MFT minting.

Note that a gas fee is required for minting NFTs, so make sure you have ALEO in your wallet beforehand.

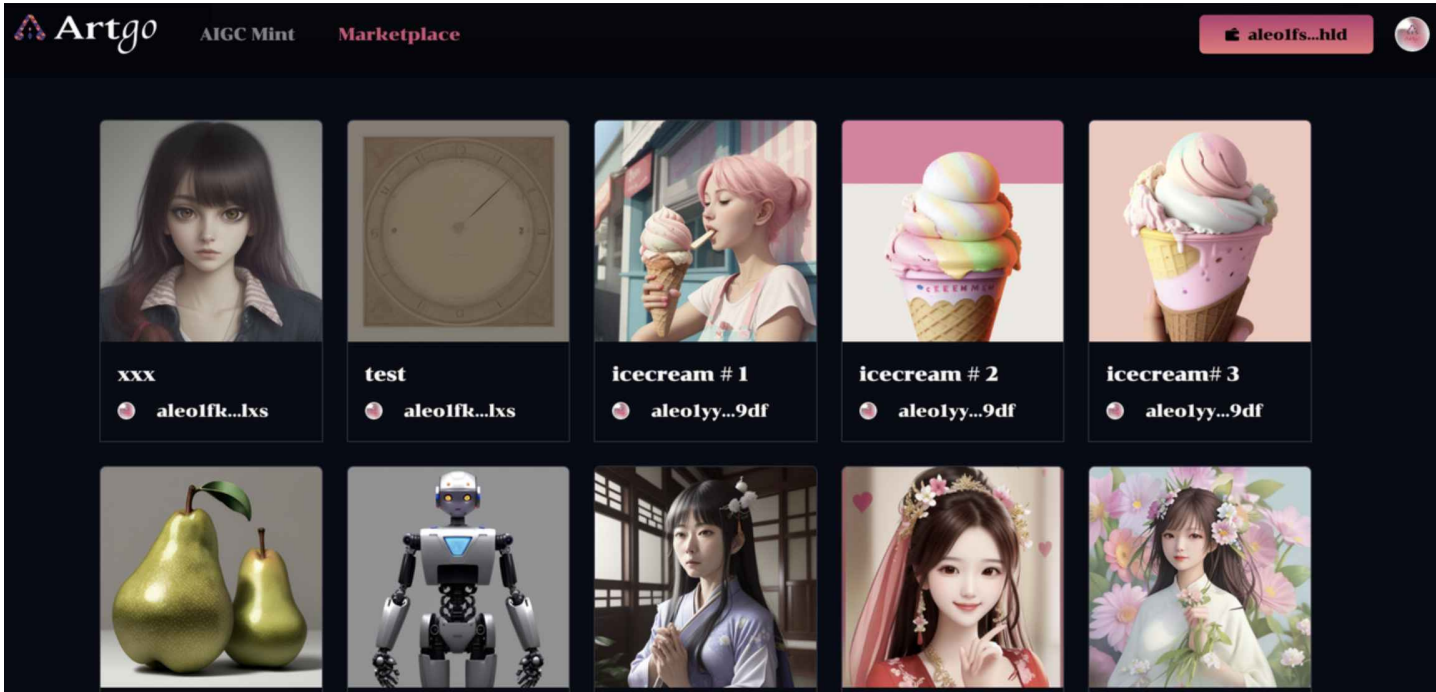

3. My NFT

After you've minted your NFT, you can view them in **My NFT** by clicking on the avatar button in the upper right corner.
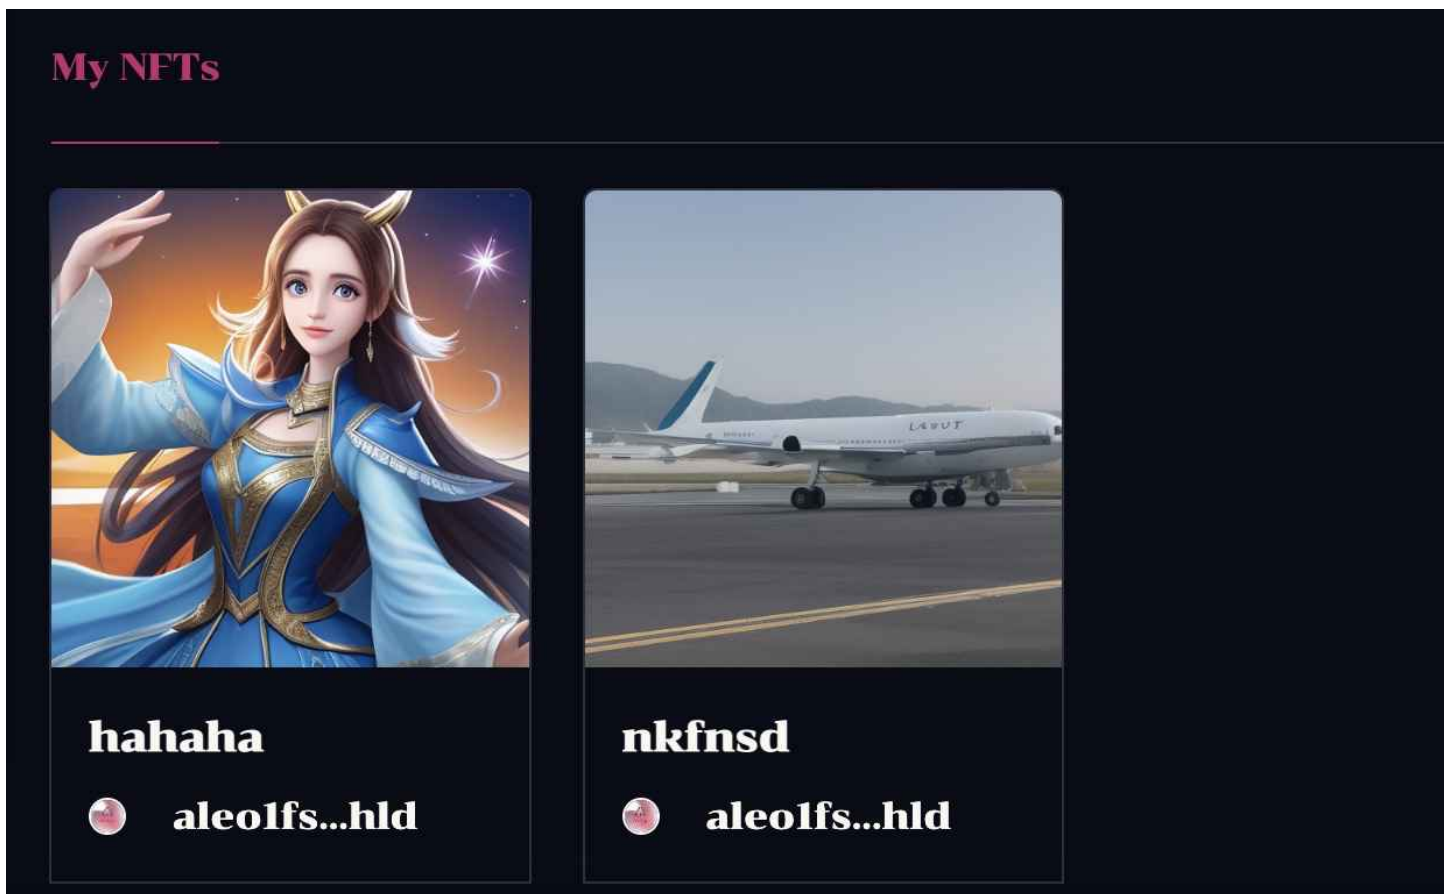

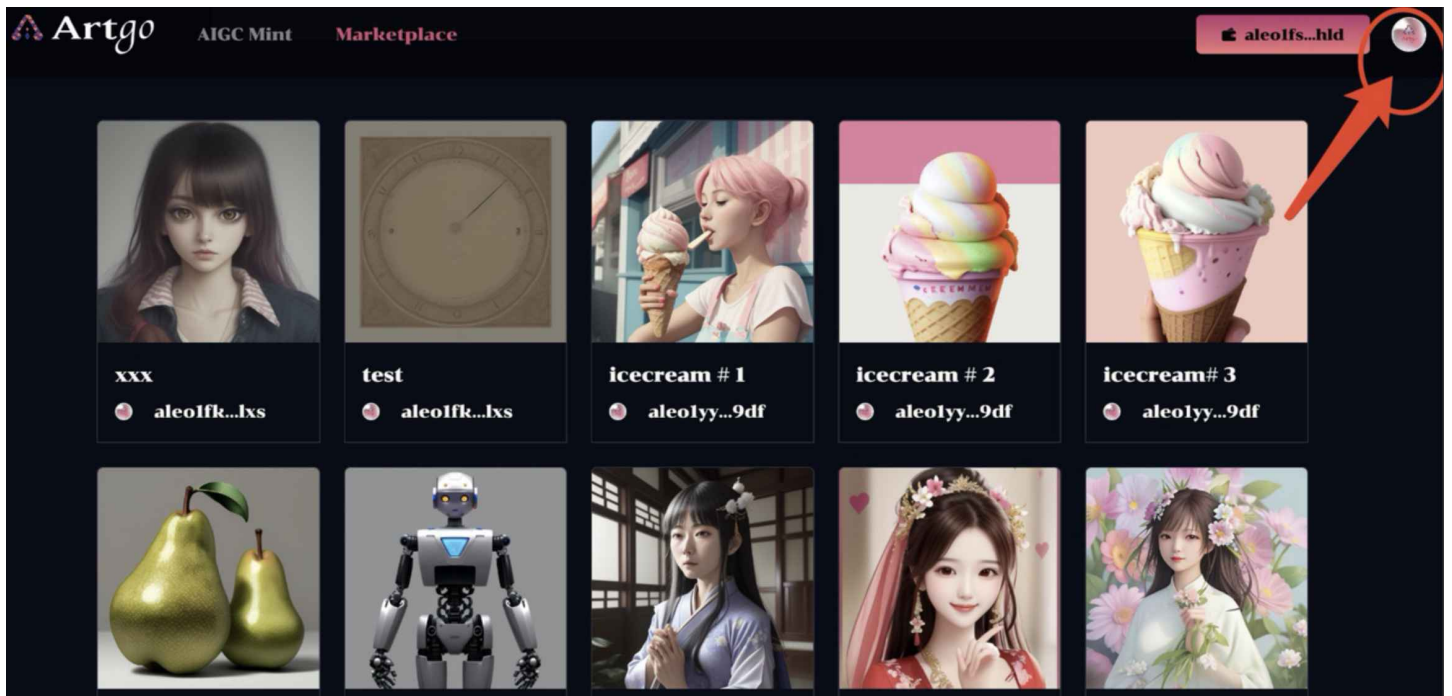

4. Marketplace

All NFTs minted by users will be displayed in **Marketplace**.

| xxx | test | icecream # 1 | icecream # 2 | icecream# 3 |
| aleo1fk...lxs | aleo1fk...lxs | aleo1yy...9df | aleo1yy...9df | aleo1yy...9df |

In future iterations, we'll support the NFT trading feature, allowing users to list their NFTs on the market and purchase NFTs they favor. Stay tuned.
